IUVSTA Prizes

ECM-135-20-H-03

IUVSTA Prize

Every three years IUVSTA awards two major prizes :

The IUVSTA Prize in Science

The IUVSTA Prize in Technology

ECM-135-20-H-03

IUVSTA Prize for Science

is awarded to recognize and encourage outstanding internationally-acclaimed research in the fields of interest to IUVSTA.

ECM-135-20-H-03

IUVSTA Prize for Technology

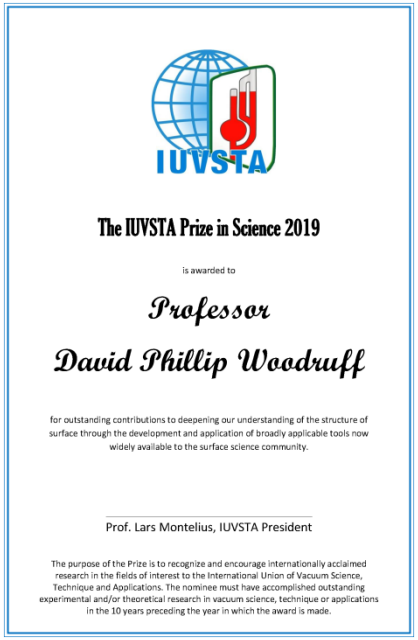
is awarded to recognize and encourage outstanding internationally-acclaimed achievements in technology and instrumentation in the fields of interest to IUVSTA.

ECM-135-20-H-03

IUVSTA Prize

consists of

- a cash award,
- a struck medal
- and a certificate



IUVSTA

The IUVSTA Prize in Science 2019

is awarded to

Professor

David Phillip Woodruff

for outstanding contributions to deepening our understanding of the structure of surface through the development and application of broadly applicable tools now widely available to the surface science community.

Prof. Lars Montelius, IUVSTA President

The purpose of the Prize is to recognize and encourage internationally acclaimed research in the fields of interest to the International Union of Vacuum Science, Technique and Applications. The nominee must have accomplished outstanding experimental and/or theoretical research in vacuum science, technique or applications in the 10 years preceding the year in which the award is made.

Peter Barna Award

- The Peter Barna Award for young scientists (PhD-level) for best conference presentation consists of a certificate and a cash award of EUR 200.–
- The spirit of the award is to make a link from the well established scientists involved in ICTF to outstanding young researchers.
- In the future, this prize should of course be associated to ASC.
- To minimize the associated work it is proposed that the selection committee is formed by the organizers of the respective ICTF, preferably involving the chair of TFD, and officers of IUVSTA if they are attending the congress. The cash award would be directly transferred to the Awardees by the treasurer.
