IUVSTA Surface Engineering Division (SED)
Report on Activities for ECM-97

1. The Surface Engineering Division of IUVSTA held the election for officers and member of the Executive Council at the end of the last triennium. The elected officers are:

Chair – William Sproul
Vice Chair – Frank Richter
Secretary – Christian Mitterer

Members of the Executive Council are Jaroslav Vlcek, Thierry Czerwiec, Zoe Barber, and Albano Cavaleiro.

The results of this election were communicated to Bill Westwood.

2. In keeping with the fine cooperation with the Thin Film Division, the SED chair attended the TFD meeting in Lanzarote to discuss the possibility of jointly sponsoring an IUVSTA workshop on the effects of impurities on the nucleation and growth of thin films. The proposed workshop would be held in Hungary and would be hosted by Professor Peter Barna. The TFD liked this proposal for the workshop, and now both divisions will vote on the proposal. Assuming the vote is positive, this workshop will be proposed to the STD at the ECM-98 in Austria.

3. The SED will hold a meeting of its members at the ICMCTF in San Diego on Monday, May 2, 2005.

4. An up-to-date list of the 2002007 SED representatives and their e-mail addresses is attached.

Respectfully submitted,
William D. Sproul
IUVSTA SED Chair

IUVSTA Surface Engineering Division Members for the 2004-2007 Triennium
